

THE SOLAR RETURN

1. WHAT IS A SOLAR RETURN? It is a chart calculated the same way one calculates the natal chart except that it is calculated for that "exact moment" when the SUN RETURNS to the exact DEGREE and MINUTE it is in the BIRTH CHART.
 - a. It is calculated once a year AFTER the person's birthday, hour, and minute has passed.
 - b. You wait until your birthday has passed because the SOLAR RETURN MUST be calculated for the CITY, STATE, COUNTRY you were in at the time of your birth hour and date. You do not use the city, state, country where you were ACTUALLY BORN. In effect the SOLAR RETURN is RELOCATED to the place you were when your birth hour and minute occurred.
 - c. The SOLAR RETURN is done as a PART of the TOTAL technique of prediction. In America most astrologers rely heavily on TRANSITS and PROGRESSIONS in their predictions. In Europe most astrologers rely heavily on TRANSITS and SOLAR RETURNS. A complete system should really include all three methods of prediction.
 - d. SOLAR RETURNS frequently fall on the day before or after your actual birth DATE because of leap year.
 - e. Many people calculate their SOLAR RETURNS a few months before their birthday actually falls. If they do not like the looks of it, they're-calculate the return of several different cities they could possibly travel to and be in on the day of their birth. If they like one of the new returns enough they arrange to be in that city when their birth hour occurs. It is only necessary to remain in that city for the ACTUAL MOMENT OF BIRTH, but since most birth hours are OFF as much as fifteen to twenty minutes, it is advisable to stay about an hour on either side of your birth hour and minute. Some astrologers advise staying in the city for a 24 hour period. This is really not necessary and you could safely move on an hour after your birth time if you are only in transit using that city to place the SOLAR RETURN where you desire it.
 - f. By changing your location you cause the Ascendant in the SOLAR RETURN to change either by degrees and minutes or as much as a change in sign. This generally requires a move of some distance where the SOLAR RETURN would

occur if you did not go anywhere. A great deal has to do with where you were born in the first place. In instances where grave danger or severe conditions show in the SOLAR RETURN, some will be willing to travel a distance.

2. STEPS IN INTERPRETING THE SOLAR RETURN. (In order of procedure and Importance).

- a. Overlay the Annual SOLAR RETURN onto the Natal Birth Chart.
- b. Examine the ASC (The ASC and MC are the most important single factors).
 1. Examine the natal house where the annual Solar Ascendant falls.
 2. Examine the sign on the annual Ascendant,
 3. Examine the meaning of the SUPERIMPOSITION of the Ascendant in that house.
 4. Examine the RULER OF THE ASCENDANT in the SOLAR RETURN.
 - a) The SOLAR HOUSE it is in and aspects to the RULER.NOTE: With Major Aspects, there will be more events. With Minor Aspects except the Quincunx, the effects will be more psychological.
- c. Examine the SOLAR planets in the SOLAR FIRST HOUSE and any aspects to these planets. CONSIDER ALL ASPECTS to these planets giving the psychological as well as the possibility of events occurring. If there are no major aspects to the ASC and to the FIRST HOUSE, then the influence of the minor aspects will be used and they will give more of a PSYCHOLOGICAL influence rather than bringing about EVENTS during the year. MINOR ASPECTS could bring about a philosophical, religious, or ideological evolution during the year in matters shown by the ASC and the FIRST HOUSE should there be very few or no major aspects to the ASC and the FIRST HOUSE.
- d. Consider the annual MC the same way as you did the annual ASC.
- e. Consider the annual SOLAR house superimpositions in the same way.
- f. Pay special attention to HOUSES and their matters in all interpretations... especially houses with a group of planets in them...stelliums.

- g. Consider all other planets. Planets in ANGULAR HOUSES are VERY important and the more the number of planets falling in angular houses, the more important the year will be...the more important the SOLAR RETURN is likely to be.
- h. A planet RETURNING TO IT'S NATAL SIGN is read the same way as if it were the same planet in the same house in the natal chart.
 - i. Consider all aspects to these other planets.
- 1) Aspects between planets in the SOLAR RETURN are the MOST IMPORTANT and show the strongest influences for the year. Rely on them.
 - 2) Aspects between planets in the SOLAR RETURN to planets in the natal chart are not as strong an influence, but they do have an effect, especially if they are the BENEFIC PLANETS JUPITER AND VENUS or the Malefic PLANETS MARS AND SATURN.
- j . In interpreting the ASPECTS, the CONJUNCT is the MOST IMPORTANT and should be given special attention.

THE ASPECTS IN SOLAR RETURNS

The more planets there are in angular houses (1st, 4th, 7th and 10th) the more important the SOLAR RETURN is likely to be this year.

1. The orbs are smaller than in the natal chart:
 - a. Allow 8° for the Sun and Moon conjunctions and oppositions... APPLYING ASPECTS.
 - b. Allow 6° for the other planets... APPLYING ASPECTS.. conjunctions and oppositions.
 - c. A separating aspect generally indicates something that happened before the date of the SOLAR RETURN, so it does not effect the current SOLAR RETURN too much.
 - d. The closer the aspect the more tangible and evident are its effects.
2. Interpret aspects formed in the SOLAR RETURN the same way you interpret aspects in the natal chart. Conjunctions are especially strong during the year.

You will find that there are usually very few formed; usually only three or less and at times there are none.

Steps in Forecasting Events

NOTE: When forecasting always remember that nothing can come GOOD or POOR that is not shown in the NATAL Chart. Astrologers who forget this will make incorrect forecasts for sure. Also, different persons act differently towards transits and progressions because of the effect of the SOLAR RETURN affecting the matter at hand, OR they have the same aspect in their natal chart and have become accustomed to handling it maturely or not over the years because they have lived with it so long, OR the age of the soul of the individual is different... older souls are generally able to handle matters more maturely and at times will not even be influenced at all by certain aspects. You will hear them say "That doesn't bother me". Make a note on their natal that they are not affected by transits to such and such, and which transits or progressions these are, but check the SOLAR first before you do as it may be temporarily relieving the stress and they actually are affected by the aspect.

Please remember that you can get lost in the woods in forecasting by considering too many things at once... concentrate on the houses where the action is... planets, transits, progressions, solars... and again, make sure that the influence shows in the natal chart.

PROCEDURE

1. Determine what area of life you are questioning.
2. Go to the house/houses that govern that area of life.
3. Interpret the meaning of the SIGN on the cusp of the house/houses involved using sign traits, quality, element, positive and negative.

Of special interest:

- a) Cardinal - you go out and cause the events to happen to you
 - b) Fixed - events come to you which you do not control,
 - c) Mutable - brings a slow inner change rather than events.
4. See what planets are in the house/houses involved... the more you find, the more important the matter:

- a) Interpret the influence of each planet by the MEANING of the planet and what it rules.
- b) Interpret if the planet is malefic (Mars, Saturn and at times Uranus and Neptune)...or benefic (Venus and Jupiter).
- c) Note the SIGN each planet NATURALLY RULES (as Venus naturally rules Taurus and Libra). Go around the chart to the house/houses with that sign on them... matters of that house will be connected with matters of the house you are considering.

(Obviously this can get to be quite complicated if a lot of planets are in the house you are considering as each planet will refer you to one or two more houses and at times it will seem the whole chart and every realm of your life is involved in the matter which is probably just what is happening, it's an involved time... joyously, sadly, or both at once.

d) Interpret the ASPECTS to the planets in the house/houses you are considering.

1. Especially look for benefic and malefic aspects and benefic and malefic planets contacting each other. (Malefic planets sometimes act beneficially especially when all aspected as Saturn).
 2. Interpret the house the ASPECTING PLANET BRINGS IN.. that is, interpret the house where the other planet in the aspect is.. matters of that house are important to the matters of the house you are questioning. NOTE: If that "other" house has planets in it too, you will have a lot of work to do as it will be affected by the other planets.
- e) If something is happening in your life and it doesn't show up after doing all of this...then interpret the ASPECTS by NATURAL HOUSE ASSOCIATION.

DEGREE	ASPEC T	NATU RAL HOUS E	NATURAL HOUSE MEANING...
0	CJN	1	Ego, personality, etc.
30	SSX	2	Money, beliefs... secret things, enemies, etc.

60	SXT	3	Communication, siblings, travel, hopes, friends.
90	SQR	4	Family, parents, home ... career, social standing.
120	TRI	5-9	Children, pleasure... travel, higher education, etc.
150	QCX	6-8	Work, health... inheritance, death, partner's money, etc.
180	OPP	7	Partnerships, court decisions, spouse, etc.

f) Note HOW the person is likely to REACT to the ASPECT in consideration by looking at it's element/elements, quality, positive and negative of the SIGN the planet in the aspect is in.

1. Element -

FIRE - all fired up

EARTH - practical, cautious

AIR - Takes a mental approach, thinks it over

WATER - gets all emotional

.2. Quality -

CARDINAL - goes out and does something

FIXED - generally does little and gets stubborn over the matter

MUTABLE - adapts to the situation at hand.

3. POS/NEG -

POSITIVE - Is aggressive

NEGATIVE - Is passive.

THE SUPERIMPOSITION (OVERLAYING) THE ANNUAL HOUSE CUSPS OF THE SOLAR RETURN ONTO THE NATAL CHART.

1. The SUPER IMPOSITION TECHNIQUE is the key difference when interpreting a SOLAR RETURN.

2. You need two charts to superimpose the houses: a) THE SOLAR RETURN and b) THE NATAL CHART.

3. How to superimpose the annual SOLAR RETURN onto the natal chart:

a. Get out your SOLAR RETURN for 2023 (or whatever year) .

b. Write down the DEGREE SIGN MINUTE of the ASC in the SOLAR RETURN

c. Now get out your natal chart.

d. Locate what HOUSE this degree, sign & minute falls in your natal chart and this is where the SOLAR ASC falls in your natal chart.

e. You are allowed to use a 5° orb.

f. Using the system above do the same for each HOUSE CUSP IN THE SOLAR RETURN.

g. As you become more adept at superimposing the house cusps you can then consider where the ENTIRE ANNUAL HOUSE FALLS. Frequently when interpreting this way you will become involved with three houses: The annual SOLAR HOUSE, and two natal houses. However, you can get quite an excellent interpretation considering only the house where the ANNUAL HOUSE CUSP FALLS allowing your five° orb. These super impositions WILL ALWAYS BE THE MOST IMPORTANT TO CONSIDER.. the house wherein the SOLAR HOUSE CUSP falls.

h. Using the 5° orb method, if the cusp falls into TWO HOUSES when allowing the 5° orb, the house where the EXACT house cusp falls is the most important, but you must consider both natal houses in your interpretation.

INTERPRETING THE ANNUAL SUPERIMPOSITIONS OF THE SOLAR RETURN ONTO THE NATAL HOUSES

THE ANNUAL ASCENDANT

1. This is the single most important factor to consider in the chart of the SOLAR RETURN.
2. Matters of the HOUSE that the annual ASC falls in will ALWAYS be connected with the most important event of the year. Those house matters will dominate your interests above all other interests during the year... at times happily so...at times not so happy. That house will also show the overall atmosphere in which you will live during the year.
3. Should the ANNUAL SOLAR ASC fall Qn the NATAL ASC (allow 1° orb) or on the natal MC (allow 1° orb) it will be a SIGNIFICANT YEAR IN YOUR LIFE.

!! IMPORTANT NOTE: !!

A Note on Interpretations, as this is a predictive class as taught to me by my teacher there are some references that are more “doom and gloom” than I would usually teach. Please don't take these to heart, as it takes multiple influences in a chart to signify some of the more devastating impacts. For example, you would need 3+ signifiers in your Solar Return chart that symbolizes the worst. However, for the more practiced Astrologers taking this course, may you find these “doom and gloom” predictions a helpful part of your counseling practice.

How do I utilize these in a session?

For example if there are multiple signifiers that could represent the death of the mother I would not say to a client “It looks like your mother might die this year!”. Instead I would look at the natal chart for the relationship with the mother, and ask a client “I can see some tension with your mother over xyz, how is that showing up in your life right now?” following up with some questions about the relationship they would LIKE to have with their mother, and gently coaching them to take any relevant actionable steps they determine would help heal/improve the relationship with the mother.

INTERPRETING THE ANNUAL ASC IN THE NATAL HOUSES

1. THE ANNUAL ASC IN THE NATAL FIRST HOUSE - This superimposition will give you a great deal of freedom to do as you wish during the year and you have the potential to fulfill much of what shows in your birth chart if you pursue those affairs. If you do nothing, don't expect anything to come of it. You have free will to choose what you will do. The SOLAR return points out activities that can be pursued effectively as does the natal chart. It's up to you to fulfill your destiny effectively. Any planet which occupies the first house in the SOLAR RETURN will tend to decrease your freedom according to what the planet symbolizes and how they are aspected. Planets here can show the types of events you will be involved in during the year and how you will be limited or aided according to the nature of the planet. If a planet is in the first house in the SOLAR RETURN and is not conjunct THE asc YOU WILL BE SUBJECT TO THE ENERGIES OF THE PLANET..THAT IS THINGS THE PLANET SYMBOLIZES WILL COME to you AND EFFECT YOU. If the planet is CONJUNCT to the ASC, YOU WILL CAUSE THE ACTIONS the planet symbolizes.

2. THE ANNUAL ASC IN THE NATAL SECOND HOUSE - The most important matters of the year will center on your income and finances, and your personal beliefs. If the overall SOLAR RETURN is benefic it can indicate an important business of financial accomplishment. If it is malefic in general, it will bring financial worries or problems.

3. THE ANNUAL ASC IN THE NATAL THIRD HOUSE - The major concern of the year or the major event of the year will involve the person's brother or sister, travel, mental work, studies, civil matters, speaking, teaching, communication, or writing. There will be many visits and short trips. World matters will concern those close at hand. If the SOLAR RETURN is highly active and love is shown, then this superimposition refers to an important relationship since the third house is the "house of lovers".

4. THE ANNUAL ASC IN THE NATAL FOURTH HOUSE - This frequently is a sign that there will be a change of residence during the year, or that you will complete some continuing project, or some important enterprise will end, or an important event involving the parents will occur, or an important event will involve the home or real estate, the individual's background, or early years. This placement makes the individual desire material and moral stability and will cause him/her to be concerned about his/her future security. Those who do not have their own home may establish one. If the fourth house is afflicted, this is a

poor configuration in general. However, if good aspects form to this house and planets in it, it can prove to be a very beneficial year. At times this signifies the year of death of the individual, but OTHER FACTORS would have to bear this out. It is very hard to accurately forecast one's death.

5. THE ANNUAL ASC IN THE NATAL FIFTH HOUSE - The major event of the year will involve children, love, romance, teaching, gambling, speculation, pleasure, creativity, entertainment, or the theater. It generally brings developments in your intimate and close relationships ... if none, then one may be around the corner. Sometimes it brings an engagement, birth of children, or interest in speculation. If this house is afflicted it can bring stock market or gambling losses. In this case the fifth house would have to be connected to either the second or eighth house...as ruler of the fifth in the SOLAR in the SOLAR SECOND HOUSE, or ruler of the SECOND SOLAR in the FIFTH SOLAR, and if the planets in the total return emphasize finances. This is excellent for artists, those in creative fields or entertainment. It usually brings better relationships, more pleasure, and entertainment. If Uranus is in the fifth there can be a danger of miscarriage. You would also have to examine the sixth, eighth, and twelfth houses and the afflictions to the luminaries (Sun and Moon), and the ruler of the Ascendant.
6. THE ANNUAL ASC IN THE NATAL SIXTH HOUSE - If afflicted can be poor for health and the work environment. Even the work environment causes poor health and forces you to confront changes that need to be made. Brings the daily habits and routines to the forefront. How you live your daily life, your routines, eating habits, and how you spend your time will be battleground this year for good or for ill
7. THE ANNUAL ASC IN THE NATAL SEVENTH HOUSE - If indications of the house cusp (sign), planets and aspects are favorable, this can bring marriage or partnership of many kinds. If afflicted, it brings a trial or difficulties caused by the spouse or partner. It can also show a lack of a successful social life. If the SOLAR ASC opposes (in opposition of 1° orb) the natal ASC, it can bring problems with health, accidents, or operations. This configuration is often seen in years of divorce or separation. For politicians this placement increases public activity.
8. THE ANNUAL ASC IN THE NATAL EIGHTH HOUSE - This is often seen in years which bring a death, either in the family or circle of friends or associates. If the SOLAR RETURN is afflicted and transits and progressions show danger of death, the individual can be threatened. Otherwise it brings a condition of general weakness, - a decrease or little will power, indifferent compliance to work and

duty, worries over health or death during or as a result of illness or accident. It brings depression, aging, and erosion of strength. If the person is ill at the time of the return, there may be risks from medical care and treatments, wrongly prescribed medicine which can be dangerous to the person. If in the return the ruler of the eighth or the ASC is in the sixth...or if the two planets ruling these houses (first and eighth) are in poor aspect, you should change doctors. If the eighth is benefic it shows financial gains as from wills, stocks, estates, annuities, dividends, inheritance, the spouse, and unexpected wealth. Spiritually, this superimposition leans one to consider the afterlife.

9. THE ANNUAL ASC IN THE NATAL NINTH HOUSE - The major event of the year will involve a trip, usually some distance away. The planets in the two houses and especially in the ninth house will show if this trip will occur. This is good for studies as it broadens the outlook and improves intellectual growth. If the ninth is afflicted, it can bring fanaticism or misconceptions regarding philosophy or religion. If benefic, it favors judges, lawyers, religious people, teaching in universities, study in higher institutions, foreign and overseas matters. If afflicted it can bring troubles associated with these people.
10. THE ANNUAL ASC IN THE NATAL TENTH HOUSE - The most important event will involve career or public standing. Benefic brings changes in career, opportunities, long awaited success, but you must DO SOMETHING TO ACHIEVE IT, and the overall nature of the SOLAR RETURN in general must support this. If it also happens that the annual MC falls on the cusp of the natal seventh any change in social position good or poor will bring a change in those you associate with. This configuration is often seen in years of marriage, divorce, or partnership.
11. THE ANNUAL ASC IN THE NATAL ELEVENTH HOUSE - Friends will be the major focus of the year and fulfilling your hopes and wishes. If benefic, new friends, help from friends, plans which succeed because of friends, or fulfilling hopes and wishes which are beyond your control will occur. If afflicted, there may be problems and foul play from friends.. .sometimes severing of friendships. If the annual ASC is in the eleventh but conjunct the twelfth house cusp (7° orb) then you will encounter disloyal friends who are really secret enemies.
12. THE ANNUAL ASC IN THE NATAL TWELFTH HOUSE - This brings a year of ordeal, chronic illnesses emerge or become worse. Brings trouble from secret enemies, people doing things behind your back, gossip. Lawsuits are common with this placement. There is possibility of arrest, false accusations, psychological collapse, worry, anxiety. Check if malefic or benefic.

THE SIGN OF THE ANNUAL ASC AS IT SHOWS THE NATURE OF THE MOST IMPORTANT EVENT.

The SIGN of the ASC in the SOLAR RETURN will show the nature of the most important event of the year, so we will examine it next since we have just examined where the ASC falls. This will give a clearer picture of the nature of the annual event.

1. THE ANNUAL ASCENDANT IN ARIES - This makes you feel more independent, reckless, impetuous, hasty, daring, etc. This often is seen in years when one sets out on their own or becomes released from some form of servitude as getting out of prison, debt, etc.. It shows the beginning of a new life or the desire if the return is unfavorable. The return will show the promise of change that marks the start of a new cycle. Your energy will increase and conditions often come which help you escape your former condition and social or intellectual status. If the first is instead intercepted by Aries it shows that the native wants a change, new beginnings, but often does not have the power to do so.
2. THE ANNUAL ASCENDANT IN TAURUS - The most important event of the year can center on the money you earn and your personal beliefs. This increases sensuality and you may be morally loose. Money can bring a change in relationships. Finances are often connected with feelings as financial calculations in love plans. You may gain weight more easily; have strong desire for possessions, materialism or materialism may be the major concern. You may want material things more.
3. THE ANNUAL ASCENDANT IN GEMINI - The year is involved with relatives, especially brothers, sisters, and neighbors. You have to depend more on others this year instead of having free will. The coming and going of people you feel close to will occur. You may travel to be with relatives. You are more receptive and reunions generally away from the home or new acquaintances are possible and will play an important part in your life this year. If benefic, good for studies, speaking, teaching, writing, etc.
4. THE ANNUAL ASCENDANT IN CANCER - Matters revolve around the family, domestic affairs, parents, your past, and/or real estate. Good for politics and public life if the Moon is not too afflicted. You are more reserved and secret about what concerns you most. This makes you more emotional and if the

Moon is even slightly afflicted you will be emotional and moody, having regrets and nostalgic reverie; pointless remorse or neurosis about getting old. May make plans regarding later years.

5. THE ANNUAL ASCENDANT IN LEO - The affections dominate the year, give an optimistic attitude, good vitality, and love of life. You will probably be able to fully express your personality. Brings personal success in the natal house with Leo on the cusp or in the annual house where the Sun is. If the Sun is afflicted or poorly placed, it can bring insincerity from those close to you and a kind of modesty or pride which inhibits you from being with others. This in turn will result in a certain solitude.

6. THE ANNUAL ASCENDANT IN VIRGO - There is little freedom of choice this year and the year is generally one which is more serving. Brings conflicts of interest, especially in the work environment, with co-workers, employees, employers. Brings servitude, menial tasks, added responsibilities, boring detail, and a position subordinate to others. Success demands being diplomatic and cunning. Everyday work dominates practical matters, ensuring comfort, well being, maintaining the status quo, and usual habits of living. Infectious or viral diseases are common especially with unfavorable aspects.

7. THE ANNUAL ASCENDANT IN LIBRA - Brings reconciliations and/or partnerships with people outside the family.- Strangers may bring more happiness than the family because this is a position of worldly and social life. Often seen in years of marriage and all kinds of unions. Close friends are important. Increased associates and clientele, memberships and invitations.

8. THE ANNUAL ASCENDANT IN SCORPIO - Brings challenges that require you to face your own shadows to turn to gold, rather than just being a year of unyielding effort and struggle - often with doubtful results. Can bring conflicts, lawsuits, and legal complications in one way or another, sometimes against your will. The rest of the year must be very favorable to prevent this ASC from bringing a difficult year with some kind of disintegration. It is important to remember that the way you look at your challenges determines how empowering or disempowering this year can be.

9. THE ANNUAL ASCENDANT IN SAGITTARIUS - Brings expansion of the personality, interests, and inclinations, new ideas and projects or expansion of business affairs which make you more free and independent. A sure sign of long trips. Brings luck and optimism. The more difficult the last SOLAR RETURN was, the more this one will be good, if Jupiter is not heavily afflicted in the SOLAR RETURN. Good for overseas

matters, matters at a distance, in-laws, religion, philosophy, higher education, publishing and theology.

10. THE ANNUAL ASCENDANT IN CAPRICORN - Career and social position comes to the foreground this year. If Saturn is even slightly afflicted, worries over business are unavoidable. This position increases ambition and perseverance. You are more reserved, prone to depression, inhibition and tend to be more conservative. You may age more, tend to the straight and narrow.

11. THE ANNUAL ASCENDANT IN AQUARIUS - Your social life is emphasized, friendships, and fulfilling of your own hopes and wishes. Relationships may be profitable, especially those involving friends. If Uranus is poorly aspected it can bring rapid and unexpected reversals of friendship. You will tend to live more in the future this year, considering long term goals. Friends may help or hinder your doing so. Brings involvement with groups or you may join groups. Good for Astrology unless Uranus is afflicted.

12. THE ANNUAL ASCENDANT IN PISCES - Brings wavering decisions, a tendency to be discouraged, or a kind of fatalism which prevents you from seeing clearly and making long range plans. Confusion is common. Circumstances are stronger than your will to overcome them, yet you feel opportunistic. Very rarely does this show a good year, yet there is a kind of passive good luck which keeps the very worst from happening. If Jupiter is well placed and aspected it will make difficulties work out by themselves in the future.

THE ANNUAL MC IN THE NATAL HOUSES

Allowing a 5° orb, if the annual MC falls near the end of a natal house, you must consider that both houses are affected and interpret accordingly. The annual MC is the second MOST IMPORTANT factor to consider in the SOLAR RETURN as an indicator of the tenorial tone of the year in question.

1. THE ANNUAL MC IN THE NATAL FIRST HOUSE - This is generally favorable, giving you more freedom in directing your life as you desire. Doing so will help you in the future. This superimposition is often seen in years when the person "chooses a profession" or begins an important project that turns your life in a new direction. Much opportunity is shown by this placement. With the MC in the first good fortune can bring help, money, and patronage to you.

2. THE ANNUAL MC IN THE NATAL SECOND HOUSE - This shows a year in which you will be well paid or poorly paid depending on the planets in the SOLAR and natal houses and aspects to those planets. Finances will be very important during the year and any indications shown in the SOLAR interpretation regarding money should be well considered in depth.
3. THE ANNUAL MC IN THE NATAL THIRD HOUSE - Social life will require a great deal of travel usually of a short distance to medium distance. Business or profession in turn may require the same kind of travel. If the overall SOLAR RETURN is benefic, your social position can improve because of a short business trip or by receiving an important proposal in a letter. In charts where the person is not working, this placement usually means that their circumstances depend on their associates, brothers, sisters, or neighbors. The person's social position may be connected with writing, speaking, teaching, or other forms of communication.
4. THE ANNUAL MC IN THE NATAL FOURTH HOUSE - Questions concerning real estate, land, parents, or the home will occur this year. It often shows the end of a project you have been involved in for a long time. This is frequently seen in the year the person retires. If this house is afflicted by malefic planets or malefic aspects to planets in the SOLAR Fourth or Tenth house or to the SOLAR rules of the Fourth and Tenth, it threatens a loss of professional or social position. This will be especially true when the natal MC and the SOLAR MC are in opposition within 8° or 9°.
5. THE ANNUAL MC IN THE NATAL FIFTH HOUSE - This superimposition is generally a good sign frequently showing that you will be connected with the arts, entertainment, sports, investment, gambling, sports, or some form of creativity. Children may bring the main matter of the year to the fore and frequently bring success or your children are successful during the year. It can indicate an engagement which improves your standing. It can show a year in which the major amount of concern and time are devoted to a child. It sometimes shows a year in which you are caught up in pleasure seeking. For students, it shows the outcome of exams benefic or malefic. If the SOLAR RETURN is afflicted there can be a disintegration of your hopes because of the MC opposing the Natal Eleventh house of hopes and wishes.
6. THE ANNUAL MC IN THE NATAL SIXTH HOUSE - This shows that you will be in a subordinate or serving position during the year. If the SOLAR RETURN shows illness, this placement shows what repercussions your poor health will have on your career. Study the planets in the SOLAR Tenth house and the natal Sixth house, their aspects, and the rules of these two houses. If Saturn is in the MC

(10th house) in the SOLAR RETURN it means you will more or less be a slave to your work during the year. It reduces your freedom of choice and action as well as the achievement of your desires.

7. THE ANNUAL MC IN THE NATAL SEVENTH HOUSE - If the SOLAR RETURN, Tenth house, and Natal Seventh house are well disposed with benefic planets, aspects, and rules it can show promotion or gain in social position through marriage, partnership, or a business contract. If the SOLAR tenth and Natal seventh are unfavorably disposed it could bring changes brought about by divorce, a dissolution of partnership, or a trial. It can show the changes you will experience good or poor brought about because of changes in your partner's (business or spouse) affairs.
8. THE ANNUAL MC IN THE NATAL EIGHTH HOUSE - If this house has beneficial planets or is well aspected it can bring financial rewards from partners and sometimes an inheritance, or it can bring gain from favorably settling an account. If this house has malefic planets or unfavorable aspects to planets, or these two house cusps (SOLAR and Natal), it can show the possibility of a death which will affect your business or financial affairs, or it can bring problems with debt or other financial obligations. Debts usually are prominent in some way, whether it is favorable or unfavorable.
9. THE ANNUAL MC TN THE NATAL NINTH HOUSE - This indicates that your career will require a journey, usually of some distance unless Gemini is involved in either house, then the trips could be short; medium, or long distance. It can also mean that a journey will influence your career. Sometimes this superimposition shows that your business dealings will involve foreign persons or countries or overseas matters... or that success will come from a distance. For authors it sometimes shows their works being translated into foreign languages. It can also show you being placed in diplomatic service. During wars, it can show being arrested in a foreign country. When this happens the annual ASC is usually in the natal Twelfth house with strong planetary afflictions.
10. THE ANNUAL MC IN THE NATAL TENTH HOUSE - This is good for your profession, reputation, and good fortune throughout the year. This placement generally shows that the year will be an important one in your life. Although poor planets and aspects will have their effect, this placement is in an overall state of protection for you in matters to do with social standing and profession.
11. THE ANNUAL MC IN THE NATAL ELEVENTH HOUSE - This shows that your career is somewhat dependent on your friends, or the connection you have. It is usually a good sign that you will achieve your plans or goals for that year

providing you are realistically set. At times, this shows you working more for the future and its gains than for present satisfactions. In this case you sacrifice immediate rewards in order to achieve long range goals.

12. THE ANNUAL MC IN THE NATAL TWELFTH HOUSE - This usually brings a year of great ordeal in your profession. There is a danger of libel, slander, or trouble in either finding or keeping a job. If malefic planets are in these two houses or unfavorable aspects are to the cusps of these houses, it will make matters worse; if the favorable and unfavorable aspects are about equal it means that you will be discontent with your lot during the year.

THE MEANING OF THE SUPERIMPOSITIONS OF THE ANNUAL SOLAR RETURN TO THE NATAL HOUSES.

Houses which contain planets... especially in the SOLAR RETURN are highly significant during the year. Annual superimpositions into natal houses which contain planets are stronger than those that do not have planets in them in the natal chart. When a house in the annual SOLAR RETURN falls in TWO natal houses (5° orb allowed) all three houses involved must be considered, i.e. the SOLAR RETURN and the two natal houses in question.

In some cases the annual SOLAR cusp with its 5° orb will fall into two natal houses as above BUT the house where the exact cusp falls is the strongest influence during the year.

1. THE ANNUAL 2ND HOUSE IN THE NATAL FIRST HOUSE - What you earn will depend on your own efforts. Your health as shown in the rest of the forecast, how good your decisions are, and how much freedom of choice you have during the year.
